SUBJECT: RMS-ZBB Package

It is clear from the ICS Program Review that it will be necessary for me to restructure our entire RMS-ZBB package using manpower rather than money as the controlling factor. In mid-August, when we have recovered from the NFIP Review, I would like to meet with each of you to discuss where we are, where we are going, and how best to organize our decision units to get there. For planning purposes, you can consider that my priorities, as indicated in the ranking I did in June for the Program Review, are unlikely to change very much. I urge you to think about decision packages that provide for fewer people and more external contracts.
